

ASSIGNMENT 218 TASK 1

ASSIGNMENT BRIEF

Task 1

Produce a leaflet to explain why an animal may need to be handled and restrained. You should also list the equipment which should be used.

The leaflet should include the following:

- Reasons to handle/restrain the animal
- Why it is important to correctly identify the animal being handled
- Correct handling equipment for the animal
- How to handle and restrain animals correctly and safely

Planning for the handling and restraint

- Stress symptoms/conditions related to handling and restraint and how they can be minimised
- Possible risks to the operator when handling/restraining animals
- Procedures in place to report problems during animal and the operator during handling/restraint
