

ASSIGNMENT 226 TASK 1

ASSIGNMENT BRIEF

Task 1

Produce an information sheet on the main nutrient groups for animals and their purpose and how food and water amounts would change throughout an animal's life.

The information sheet should include the following nutritional requirements of animals from the range:

- Protein
- Fats
- Carbohydrate
- Minerals and vitamins
- Water
- Fibre

Also include amounts of food and water for animals according to:

- Age
- Weight/size
- Breed
- Activity level
- Life stage
